WE ARE CRAFTSMEN AND PROUD OF IT!

QUALITY PRODUCTS :

100% CRAFTSMANSHIP

In order to ensure the production excellence of the sofas and armchairs, each Marie's Corner product is entirely handcrafted.

We can count on an internal team of 30 Master-Decorators who are able to produce up to 12.000 pieces each year.

EXCLUSIVE AND TAILOR-MADE

Since each item is unique and personalized according to your needs, Marie's Corner choice only works based on offers, never from stock. All is made on request, either as unique piece or in a requested quantity.

Since they are the owner of their production material, Marie's Corner also can adapt itself to respond to any specific request.

PRODUCTION MADE IN EUROPE

Indeed, the choice of the designs, of the tissues and the materials is entirely ensured in Belgium, the production is effected in Zaragoza.

Since many decades, this Spanish region is the cradle of the production of artisan production and can count on a unique know-how of its craftsmen to guarantee an optimal quality level.

COMFORT AND QUALITY

From design to finished product, over the choice of raw materials, Marie's Corner is driven by one obsession only : to ensure the quality and the comfort of its accomplishments.

As such, to each armchair a label of authenticity is attached, certifying the quality of the product and the name of its craftsman for a full traceability.

A UNIQUE KNOW-HOW TO ENSURE QUALITY

CONTRACT: COMMERCIAL AND RESIDENTIAL PROJECTS

Contract is a product line specifically proposed by Marie's Corner to public commercial areas. If you are responsible for the renovation of a top of the range hotel, the decoration of a restaurant, the set-up of a club-house or any other residential project, you can rely on the Belgian tailor-made sofa and armchair specialist.

As always, each piece is made by hand by specialized craftsmen and can be declined in a wide variety of finishing. On top of the constraints and norms of this sector, Marie's Corner proposes high-quality tissues adapted to any type of project: fire proof and stain proof treatment.

Marie's Corner also proposes a tailor-made creation service for any specific decoration request, such as a dining room bench or a unique breakfast corner.

Our "Archi Contract" goes one step further : our teams are at your disposal to integrate our furniture in your architectural plans, or even support you in the elaboration of the concerned plans.

ART SEAT PROJECT

PERSONALISATION TO ITS ULTIMATE EXPRESSION

Fuelled by boundless creativity, Serge Silber and Philippe Vanhemelen – at the helm of Marie's Corner for the past 10 years – sought to take the concept of personalisation to its ultimate expression. Their idea was simple yet daring: invite artists from diverse backgrounds to **reinterpret Marie's Corner's iconic models and transform them into genuine works of art**. Thus, Art Seat was born.

This initiative will return year after year, gradually building into a collection of unique, one-of-a-kind pieces. *"We felt it was fascinating to combine our craftsmanship with a purely artistic environment. When you think about it, the line between the two worlds is surprisingly fine"* explains Serge Silber, CEO of Marie's Corner.

The project offers a striking contrast to Marie's Corner's usual design language, allowing the brand to explore a more urban, art-driven universe – one that feels unexpected, bold, and refreshingly contemporary.

WHERE INTERIOR DESIGN
MEETS ART...

gli-B

Butler by Oli B. is the result of a real exchange, a constant dialogue between the brand and the artist. *"They asked me to work on their iconic Butler piece. And on my side, I asked them for fabric samples. I wanted to choose the shade and material that would best suit my acrylic work".*

The artist explains that, like the rest of his work, he painted in total improvisation. *"I didn't make any preliminary drawings on a computer. I like to turn around the object, let myself be surprised by the inspiration of the moment, take a step back and resume later."* Oli B. had as much fun as he would have had imagining a prototype to be created in series. *"I worked with the plans and the different surfaces of the model. You have to take everything into account: the backrest, the armrests and the seat."* A working method that seduced Serge Silber. *"It was very impressive to watch him work, he managed to combine colours that should not work together in theory. And yet, they harmonise perfectly under his fingers."*

Jules Wittock

Renowned for his creations of labyrinths concealing words, Belgian visual artist Jules Wittock, Artiste honoured us by leaving his mark on our Perry chair and Avalon pouf during SEAT ART 2023, a Marie's Corner initiative. A huge thank you to this wonderful artist for this unforgettable collaboration.

"Left, right, then straight ahead... So far, it seems obvious... Oops, it's a dead end! I turn around. There, it seems to be straight ahead..."

You might say that everyone experiences the same thing, searching for their way. And you would be right. But life makes some people start very, very early to do so.

Jules Wittock, a visual artist, 30 years old, is among them and has never stopped doing it since a young age. For him, it's a matter of survival. He seeks the path in this jungle that is our world. He uses his pen as a guide. It glides intermittently, showing him the right way at every moment.

This succession of moments saves him, forcing him into the present. The pleasure of doing in the present moment. Only these present moments, where we have the pleasure of being just, save us from a world gone complex.

Each painting is a maze, with an entrance and an exit. Every labyrinth has a solution, and the path to the solution forms a word. The word hidden in the painting is a secret, but the title of the artwork serves as a clue. The paintings can have multiple words.

JAN ERIKA

For the 2024 edition of the BEL Prizes at Autoworld Brussels, this unique Art Seat was created in collaboration between Marie's Corner and London-based artist Jan Erika. Held from 29 November to 1 December, the exhibition theme *"When expertise meets art"* celebrated the fusion of technical craft and creative vision.

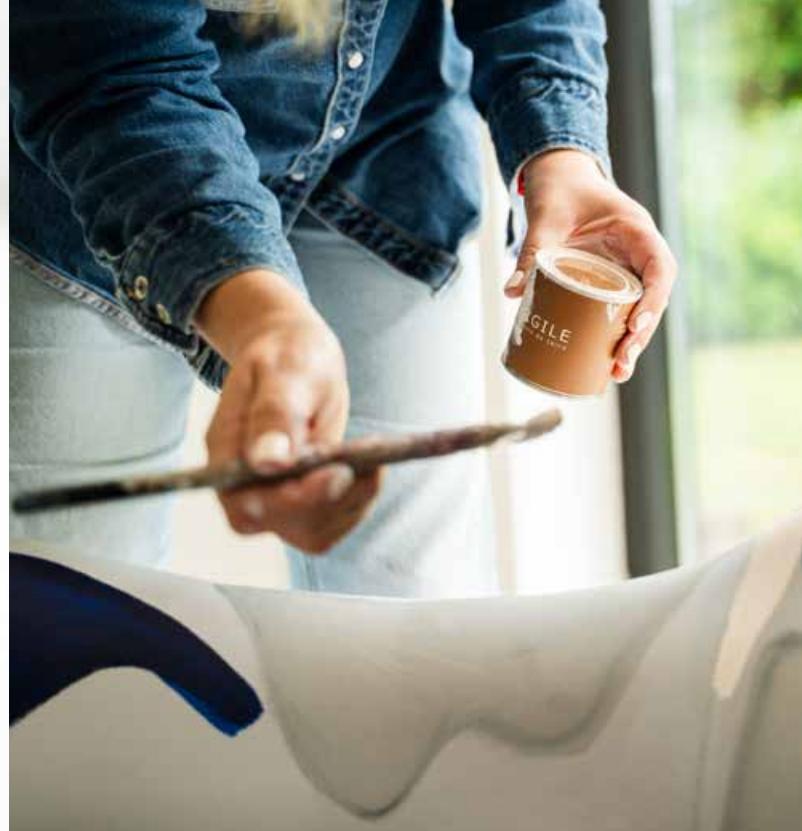

Painted in rich tones of deep blue, forest green, pale ivory and muted teal, the chair's abstract forms echo organic motifs such as leaves, wave shapes and fluid brushstrokes. The composition moves across the seat and back, creating a visual rhythm that feels alive from every angle.

Jan's signature layering technique and intuitive use of colour and shape transform the functional seating object - the Jackson - into a sculptural artwork. In this piece the boundaries between furniture and fine art blur; each glance reveals new relationships between curves, negative space and tone.

Displayed at Autoworld during this distinguished exhibition, the Art Seat brings together design, utility and expressive abstraction, offering a compelling example of how art can enter everyday interiors with depth and character.

Game, Set & Perry - 2025

For 2025 'Art Seat' edition, this piece was created in collaboration with Mathilde Wittock, bio/ecodesigner and material researcher with a focus on sustainable innovation.

Originally from Belgium, she studied biodesign and industrial design at Central Saint Martins in London, where she developed her expertise. Founder of MWO, a studio dedicated to circular materials and acoustic objects, she features 'Sounbounces', a material made from recycled tennis balls collected from Belgian clubs.

For her vision of our Perry armchair, 77 balls are given a second life as a comfortable seat, reflecting Mathilde's approach of combining design, sustainability and sensory experience.
